

CLIENT TESTIMONIALS

"A life saver! We wound up reformatting our drive after faulty info from a major computer manufacturer. RDB had us up and running overnight. We were able to save all our client files."

- John Reggio, Sign-A-Rama

"RDB saved me a bunch of headaches by being able to restore the system configuration of a few days back in 10 minutes after installing something that didn't agree with my computer."

- TJ Bass, Handyman Matters

"Within hours of having to replace my hard drive I had every scrap of data restored exactly as it was before the crash. Without this system I would have spent countless hours, perhaps days, putting my business life back together... it's worth every penny."

- Ken Thompson, Adventures in Advertising

"A new employee managed to change a bunch of records in the database accidentally with incorrect info. Luckily for us they store the last 10 versions."

- Jason Webber, Help-U-Sell Real Estate

"No longer do we have to hassle with the daily tape back up and weekly cleaning of the tape drive. Replacing those tapes every six months was getting costly, that's if we could locate them!"

- Steven Bejarano, Handyman Connection

"It is much more cost effective and reliable than manually using tape, zip, Jazz, CD or DVD drives."

- Dan Harrison, IS Manager, Budget Blinds HQ

"This backup service is truly on the cutting edge! It was so simple and direct! We were truly impressed."

- Ted Davis, CPA, Davis Accounting

"RDB saved my rear when the computer got a virus, and became inoperable. Because I had the back up service, my data was restored in less than a day."

- Barnard Sackett, Pre-Paid Legal Services
